

cara³ © *PATENT PENDING* is a brand new and unique concept building on the CARA tradition – an ergonomically designed, fast, single web application to connect to Documentum. In addition to the full application on a PC, CARA offers several mobile options for searching, viewing documents, completing workflows and other simple tasks:

- Full application available for Touchpad devices that support JAVA e.g. iPad
- Portal application available for Touchpad and mobile phone devices that support JAVA e.g. iPhone, Blackberry, Android
- Optimized and simplified touch-screen application for all mobile devices
