

# CARA Platform vs On-Premise, Legacy Solutions

Why switch?

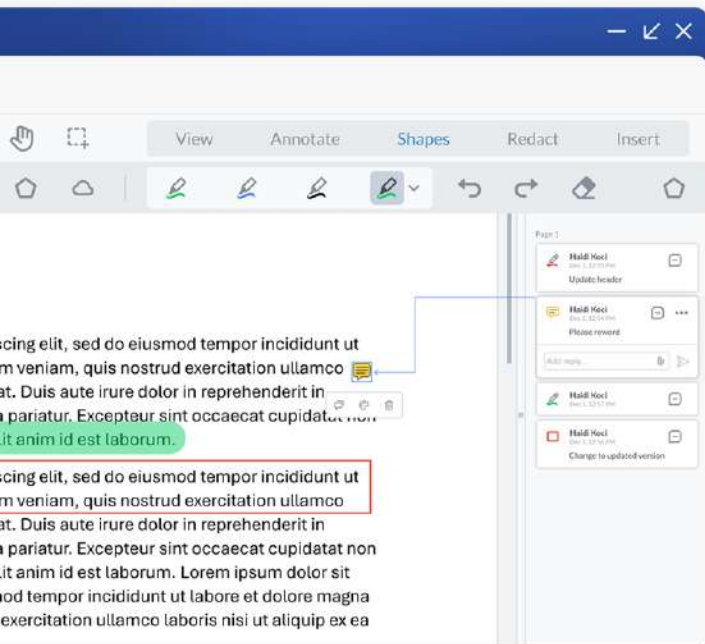

# You've Outgrown Your Legacy ECM. Let's Move On.

If you're still managing regulated content on an aging, on-premise system, you're not alone—and you're not stuck.

Legacy platforms weren't built for today's pace of business. They're holding back your teams, your innovation, and your bottom line.

## Feeling the burden?

- 🔊 Clunky UI and poor user adoption
- 🔊 Expensive infrastructure and upgrade costs
- 🔊 Long deployment cycles for updates & changes
- 🔊 Rigid systems that don't support remote work
- 🔊 Security & compliance risks with outdated systems
- 🔊 Limited innovation since acquisition or vendor change

## The CARA Platform

A Modern ECM for Regulated Content  
- Without the Headaches

**Cloud-Native**  
fast deployment, no hardware maintenance

**Intuitive UI**  
Loved by users, not just tolerated

**No-Code Config**  
Admin without IT bottlenecks

**AI-Powered**  
AI-powered search and classification

**Global Compliance**  
21 CFR part 11, GxP, ISO, FedRAMP, and more

**Built to Scale**  
For single teams to global organisations

# Migration, Minus the Mayhem

Worried about switching off your legacy platform? Don't be. We've helped enterprises of all sizes make the move—safely, and without disruption.

**Preserve everything**  
Metadata, permissions, audit trails, and folder structures.

**Run parallel environments**  
Keep business running while transitioning.

**Structured migration support**  
From planning, to execution.

## Trusted by Leaders in Regulated Industries

These global leaders made the switch and haven't looked back. They've seen faster adoption, less complexity, and stronger compliance—all in less time than they thought possible.

**Fannie Mae**

- ✓ Improve user adoption and experience, while reducing costs compared to previous legacy system
- ✓ Merged several separate docbases into one, harmonised platform

**12**  
million documents

**16<sup>TB</sup>**  
of highly confidential information

- ✓ Strategic move away from resource intensive, on-premise IT infrastructure
- ✓ Client since 2012

**30,000**  
compliance documents migrated (not including duplicate versions)

**2500**  
users

**MERCK**

- ✓ Moved multiple siloed solutions to a single system with CARA
- ✓ 21 CFR Part 11 compliance

**18**  
million documents

**12**  
systems

**85,000**  
users

There's a better way, and it starts with CARA
