

End to End for Life Sciences: CARA for SDEAs/ PV Contracts

CARA's deep integration with PV systems enables operational efficiency when working with PV contracts. Tracking PV contracts and agreements related to pharmaceutical products is a legally mandated obligation for companies, and having a siloed contracts management system is not sufficient as it does not interact with PV. As part of an end to end solution, the CARA SDEA/PV contracts package will facilitate the process and information flow required for such management.

- Stores central record of company and partner responsibilities for PV, ICSR and periodic reporting by product and country
- Optimised data entry allowing convenient structured entry of agreements and responsibility details
- Agreement approval, QA checking and review schedule management
- User self service: convenient retrieval of agreements by country, partner, product, ingredient. Real time generation of agreement summary reports
- Personalised end user email notifications of changes according to ingredient and/or country subscriptions
- Agreement comparison and differencing function
- Management of partner evaluation documentation and partner status

Contract Approval and e-signature

Our eSignature capabilities apply user information into a signature page that can be added to documents automatically once contract approval workflows are completed.

Integration with PV systems

Integrations with Pharmacovigilance (including ARISg and ARGUS) systems enabling the required information flow for managing PV contracts and SDEAs

Portal for third parties

CARA Portal enables third party viewing for simple and secure access by PV users and external contributors to contracts

Advanced Reporting and Dashboards

Users are able to monitor statistical information such as upcoming contract expiration, contracts locations and processing time.

Navigate by Maps

Easy, intuitive navigation by maps to make location-based contract management more efficient

The screenshot displays the CARA interface. On the left, a satellite map of Europe is shown with a blue pin over Liechtenstein. On the right, a search results table is displayed with the following data:

Product	Contract Approval Status	Country	City
CARA	In Discussion	Kosovo	Shtime
CARA	In Discussion	Kosovo	Prizren
CARA	Approved	Kosovo	Kamenice
CARA	Approved	Kosovo	Kline
CARA	Rejected	Kosovo	Hani i Elezit
CARA	Approved	Kosovo	Partesh
CARA	Submitted	Kosovo	Novoberde
CARA	Submitted	Liechtenstein	Balzers
CARA	Rejected	Luxembourg	Mersch
CARA	Submitted	Luxembourg	Capellen
CARA	Approved	Monaco	Monaco
CARA	Approved	Montenegro	Cetinje
CARA	Submitted	Montenegro	Rozaje
CARA	Rejected	Macedonia	Gevgellija
CARA	Approved	Macedonia	Probistip
CARA	Approved	Macedonia	Novaci
CARA	Submitted	Malta	Altard
CARA	Approved	Malta	Cospicua

Connect your Landscape
New CARA is the most interoperable ECM platform for Life Sciences.

Pure SaaS

All our of New CARA solutions are cloud-first, providing the simplicity and security of a fully-managed service. Backed by global content storage leaders, you can be safe in the knowledge that your content and information is protected by cutting-edge technology in a private cloud.
