### Track and import signed PDF

Use CARA Dashboards to track the status of signatures across multiple documents, and imports the signed PDF as a rendition

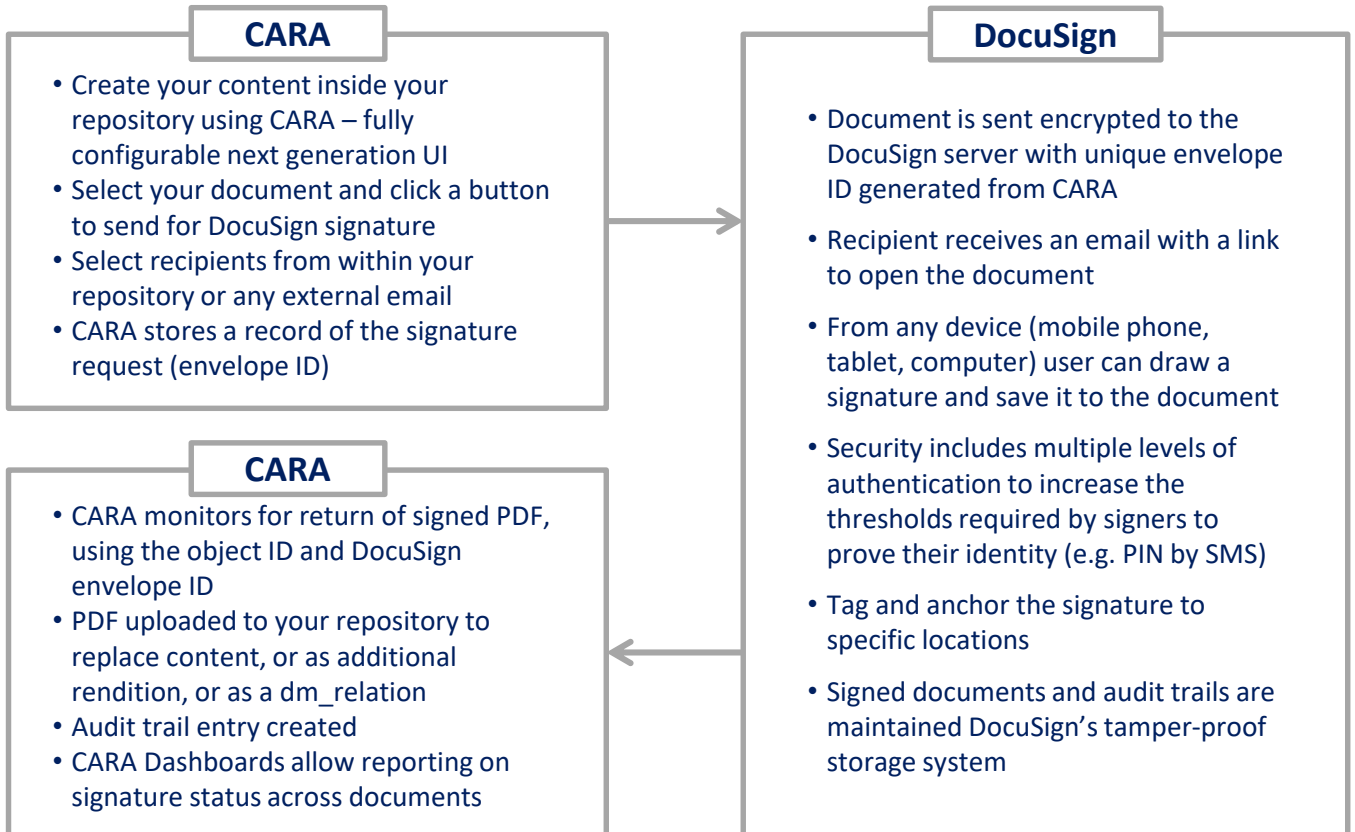

### Validation Accelerator Pack

The USDM Cloud Assurance provides customers with an accelerated path to validated implementation

# Compliance made simple

It is increasingly important to be able to ensure compliance on all kinds of business-critical content, from patient healthcare records to government applications and legal or human resources documents. CARA provides the best of breed content management user interface and configuration / business rules layer for creating content, and DocuSign lets you sign documents electronically and easily send documents for electronic signature in a safe, secure, and legally binding manner.

USDM provides a VAP (Validation Accelerator Pack) for CARA and DocuSign

Enables customers to meet industry regulations such as 21 CFR Part 11

Optional  
USDM  
Cloud  
Assurance

Reduces the time to deployment of a fully validated solution

USDM provides additional project management / implementation services
